ATTN:

Forms Management

Forms 12c and 53b

You have been holding these 2 forms for about one month to determine if the carbons would age enough to make the hestograph masters reproduce properly. On 13 June 1962, the manufacturer and I tested these forms and I decided the following:

- (1) Form 53b is OK. The carbons ^{have} improved and the form should perform satisfactorily.
- (2) Form 12c is poor and is rejected. According to of Procurement the manufacturer will pick up 12c and replace the complete order of some 60,000, 4 part sets.

Distribution:

- Orig. & 1
- 1 - Form 12c
 - 1 - Form 53b
 - 2 - RAO Office files
